

Softphone installation

To install the application on the PC, you receive normally an email with a link. → in this case you can jump to step 5

If you want to reinstall the application later (or install it on another PC)
→ Start at step 1

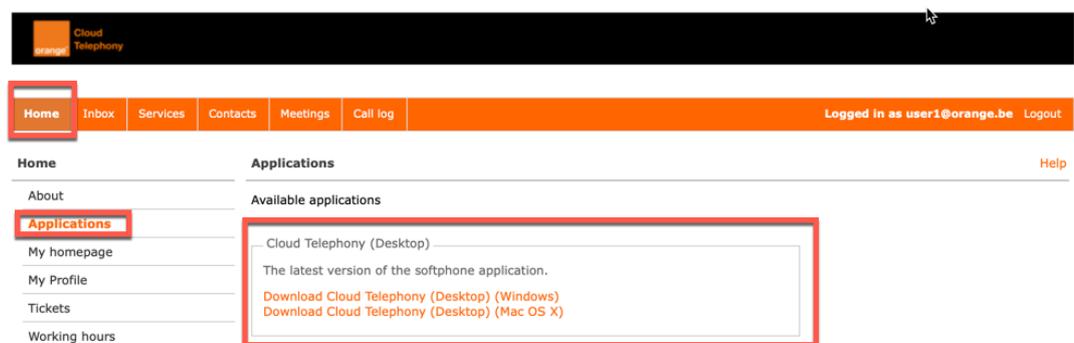

1. Go to the website <https://cloudtelephony.orange.be>
2. Enter your username and password

3. You can select “Request password” if needed

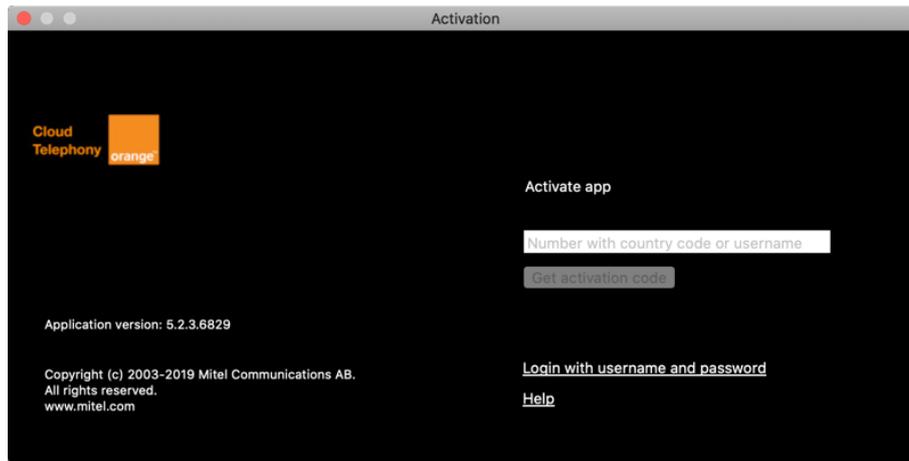

4. After login, select “Home” – “Applications” and download “Cloud Telephony (Desktop)” for the correct operating system of your computer

5. After the download, install and start the application. You get the activation screen :

Softphone installation

6. Enter your mobile phone number in canonical format (+324.....) or use your username ex. User1@orange.be and press Get activation code

7. You will receive an activation code in your mailbox

Dear,

Use the activation code in your PC application for Cloud telephony to start communicating.

Your activation code **413822**

Disregard this message if you didn't request this activation code.

Kind regards,
The Orange team

Remark : If you don't receive the mail check your junk inbox

Softphone installation

8. Enter the code. Your softphone is now ready for use
